

Expert Lectures held at MIT on 11 & 12 Oct.2010

Prof (Dr.) Rajiv Saxena, Ex-Prof. IIT, Kanpur and presently Professor & Head of ECE dept at Jaypee University of Engineering & Technology Guna, delivered series of lectures on Digital Signal Processing to final year ECE & AEI students on 11 & 12 Oct 2010.

He made the understanding of the signal processing quite easy. Starting his lecture from the inception and how the signal processing becomes Digital Signal Processing. He also illustrated in an interesting way why Digital Signal Processing was/is a must.

Further, the evolution in DSP and research possibility in the field of DSP were discussed at length by Prof Saxena.

The lecture series was very much appreciated by the student and they were greatly benefited by this. The staff and students of ECE & AEI are thankful to Prof Saxena.
